macarons

advice
from
our
chef

- Once the macarons are filled, leave them in the refrigerator for 24 hours to become moist inside.
- Take them out of the refrigerator 15-20 minutes before eating so that they come back to room temperature, in this way, their flavour will be at its best.
- Can be frozen after filling.

advice from our chef

Stretch the filling on the sheet without overlapping the edges. Then start rolling, using the baking parchment to form a perfect cylinder shaped cake.

Its beautiful colour and look make it perfect as a decoration, around the cake or on the sides of a log.

Because of its soft texture, it doesn't have to be soaked when you use it as a layer, on the top of or around the cake.

Once thawed, guaranteed quality for 48 hours.
